Along the Trail

By J. B. YULE

A MYSTERIOUS CORK

A mysterious cork is causing considerable interest and excitement at the nearby hills in Grande Prairie.

It is claimed that it was determined by the cork and that it is especially useful in selecting eggs for setting. If these claims are true, birds are desired the cork can be reliably depended on to determine the sex that will come from the egg.

According to Archibald, the cork was used in ancient times, both in Greece and China, to indicate sex. Of course there are a few skeptics, and they have given a skeptical demonstration of the infallibility of the cork in determining sex will be given at the said hotel in the near future.

An unbeliever, after hearing the story, remarked, "I don't believe it." Another observed: "I am going to take the air before you fellows become violent."

The demonstration will be announced through The Tribune.

Dad's Notions

By E. S. Stanley

How long will you live? Ten, fifty or a thousand years? I am not just.

You are made up of flesh and bone, blood and nerves. And more. Your thoughts, which motivate actions, are part of you as really as your feet. You are made up of flesh and bone, repels or draws people, is also a very definite part of you.

Your health of life will depart and leave your form lifeless, but your influence may live on and on down through the years to bless and enrich the lives of men, providing, however, you prepare now to make it so.

A dear friend of mine at Beaver Lake, Ontario, sent me a letter last week who complained that in the twenty-one years he had been here, he had not got ahead.

"What are you doing with your 'getting ahead?'" my friend asked him. "You say you have not gone hungry, that you have been clothed, so what do you want?"

Well, he wanted more: a new house, a fine car, the extra quarter of land, etc. "Yes," said my friend, "then in only ten years, twenty years, or maybe half a year you will die and leave it all. Will you in reality have gone ahead?"

Then my friend drew out his thought at length: "I can't eat more than three meals a day with comfort. He can't wear more than one suit of clothes. The cost of the spirit, that is as we can go. A thousand or a million added can't do more for us, perhaps, to add worry and perplexity."

My friend then cited John Wesley as an example of what it really means to be poor. That is, he lived with only the bear necessities of life, he, after a hundred years, is still living by his influence, and leaving behind him the lives of millions.

We may think of Queen Victoria, whose influence after these years seems on the blinks of the springtime of the world. Despite her throne and earthly belongings, she "got ahead." Though she left the tangible wealth of the Empire, she left the intangible wealth of her influence felt by tens of millions.

My strawberries and camp, you store, your blacksmith, show your agent, your lawyer, and your these and all occupations are not—should not be—the ultimate goal. The goal of our efforts, in molding our influence, is for the greatest possible good, is our real business.

But this is no excuse for carelessness, for laziness, for the attitude by which we submit. Rather, if we sense the importance of life, we will do each task as if for king and country. Indeed, the way we do our daily duties is a gauge of our character.

But contrary to statistics, longevity is shortening. People are living shorter, the records of childhood and building. Its influence for good is often non-existent.

A little while ago by an interested friend reveals startling facts. Of 9,500 persons queried—

49.9% said religion is losing ground;

17.2% said religion is holding its own;

24.8% said religion is gaining strength;

45.0% said moral standards are worse;

27.8% said they are the same;

17.1% said they are better.

Official government statistics show that in United States since 1932 there has been an increase in expenditures for:

Jewelry 25%

Army and Navy 30%

Theatres 41%

Cars 48%

Automobiles 200%

Whisky 220%

Beer 602%

Entertainments of Industrial Corporations 975%

Corporations are reaping unwaranted profits, but the rank and file

"The TRIBUNE IS A CLEAN, FAIR NEWSPAPER AND HAS A FINE SENSE OF DECENCY"

also have a vigorous hue. Shallow-brain painting to look pretty when they "ain't"; insatiable thirsts quaffing liquor to feel a thrill of a million when they are despicable wretches; men who have to fight their way to do more. Middle-aged or old men are no use in the army or navy anymore. The young ones who need send their houses of government: The young people have been getting the most out of the government for twenty years. Why? Just because we have been sending a bunch of old bachelors to Ottawa who think a dark night is the time to over financial ends and the precious dollars.

OLDTIMER GIVES OPINION ON FIRST STUFF IN ELECTION CAMPAIGN

To the Editor of The Tribune.

The first gun in the provincial election campaign in this district was fired yesterday in Grande Prairie. Baker and Sharpe in the basement of the United Church, where their meeting was held, were full of listeners and onlookers, for the new part of it was that this meeting represented a striking entrance into politics, and what choices has taken us to expect of a political meeting.

Emerging, she muttered between gasps, "I didn't want to do that. Nor did she again; for thereafter she kept silent for weeks.

It is the trait of human nature, it seems, to taste bitter experience before doing or avoiding those things which would have saved the experience.

But how many times after a grueling experience, often, the person aroused to the importance of life and makes his mark in the world.

I think of the American President of the United States, despite his physical misfortune, has attained the highest honor that nation can bestow.

Mr. Baker told us about treasury branch and explained the why and how regarding them. When the full explanation is given, it is rather easy to understand.

But Mr. Baker's strongest point, in my opinion, was his plan for more use of Alberta-made goods, a policy which is easily accepted and correct. All spoken to concerning this agree—and they have been people with different political persuasions.

And "Jackie," who as a little boy was left unnoticed in the burning home. His escape was deemed a miracle. There must be a special design for "Jackie," I said to myself.

Younger men will depart and leave their form lifeless, but your influence may live on and on down through the years to bless and enrich the lives of men, providing, however, you prepare now to make it so.

Recall how Theodore Roosevelt rode his ranch in Arizona, and at other times put up a campaign for what he thought might develop from weakness (as I understand he was to a robust, hardened manhood, prepared to defend his position).

How can we overlook Gladstone, who kept his physique fit with a daily go at the axe, fellings trees, and never be downed by a physical weakness?

It was a curious sight to me: a man of not less than a year's age attending school in the same room with his children. While a railway engineer running out of Winnipeg, he was put up with fever, a strong remedy with deep roots, for what he felt was a wasted life, he resolved to redeem the time should on this big gap ahead.

Recovering, he commenced school in the third grade, where he had left off as a boy, and unabashed continued his studies. Today, he is a senator for one of the north-western states.

Who can you readers know the story of Luther Burbank? Left fatherless and made the supporter of the home in his early teens, this boy received training in agriculture, became a great horticulturist, and eventually a member of the S.C. party on this big gap ahead.

trained in a progressive atmosphere—young man or young woman—who are free from old party alliances. As I see it, this is a young people's war. They are the ones who have to fight their way to do more. Middle-aged or old men are no use in the army or navy anymore. The young ones who need send their houses of government: The young people have been getting the most out of the government for twenty years. Why? Just because we have been sending a bunch of old bachelors to Ottawa who think a dark night is the time to over financial ends and the precious dollars.

However, one can remember that, that one-cent stuff, added once in a while, does not add up to despise. But unfortunately such a find would have been only problematical for real profits to be gained.

Dominion government enacted and passed laws to help the banks. Since then they have given us a Bank of Canada, various forms of Dominion loans, and also some debt legislation. These things are doubtless steps in the right direction, but to the common people who are stretched in anguish on the economic front, there is almost an impossibility to answer such a question. Refinery has had a mysterious effect on price.

However, one can remember that, that one-cent stuff, added once in a while, does not add up to despise. But unfortunately such a find would have been only problematical for real profits to be gained.

Yes, such question is very peculiar. For instance, at the last provincial election it would have been almost impossible to expect a majority to be given by a government that is under the control of the financiers. Bill Irvine has fought—and always will fight for a government that will be under control of the people.

It all boils down to a question of campaign expenses. Mr. Rowe, in his election campaign, spent a large amount of money on his campaign. When a question is asked whether a candidate is honest, it is embarrassing to both sides, it is generally said and gladly left unanswered.

To ask and expect such an answer is almost a futile thing to do. One may well ask himself why wonders are done, and what is the result.

Interesting News From Sexsmith

Vol. VIII. No. 1 By R. A. MACLEOD June 20, 1939

JUNIORS WIN BALL GAME

Sexsmith junior baseball team, after three starts, have won a ball game. Their first two games were with Tepee Creek and Grande Prairie, coming out in both cases on the short end of the score, same being 8 to 7 in both cases and, incidentally, Sexsmith were the ones when the opposition in both games went to bat for the last time. The team which took such a drubbing in the first two games, however, but these boys were not in practice and will no doubt give a better account of themselves when they settle down to a better pace.

There will be some interesting ball games here in Sexsmith very shortly, so watch for the posters, and support your team.

GONE SOUTH

Mr. and Mrs. J. A. Weicker, Miss Muriel Weicker and Mr. J. P. Isaac, K.C., left by car last week for Edmonton and Calgary. Isaac is attending the Home Economics convention, which is being held in the latter city. They expect to be away until about the end of the month.

CANADIAN LEGION PICNIC AT BUFFALO LAKES, JULY 2

The Canadian Legion Post 60 of Sexsmith will hold their picnic at the Buffalo Lakes on Sunday, July 2, at the weatherman's suggestion, good behavior. All are invited and are asked to bring your own lunch baskets. Coffee will be provided on the grounds at a nominal price.

This will be a red letter day for the kiddies, and transportation will be provided from Sexsmith for all those who have no means of getting out to the grounds. More particulars later.

MANY AT MASONIC PICNIC

There was quite a large attendance at the Masonic picnic at Dunvegan last Sunday, and over 1000 were bussed there. Those who would have probably been a lot more but the threatened rain kept a number away. There were picnics here and there along the way from Wembley, Peace River and High Prairie, and intermediate points. Tommy Fairbanks and family were the lone representatives from Sexsmith.

CHILDREN ON ANXIOUS SEAT

Less than two weeks of school. The children are now on the anxious seat as to whether they are going to pass or not, and are trying every old work, trying to figure out just what questions are going to be asked at their examinations. After this crisis is over, there are lots of other holidays, which at this moment seem endless. This time of year runs a pretty close second to Christmas in the mind of the kids.

CARD OF THANKS

Mrs. Jane Bell and family wish to take this opportunity to express their thanks and appreciation to their many friends for their help and sympathy, also for the floral offerings, during their recent bereavement.

SEXSMITH AND DISTRICT ANGLICAN SERVICES REV. H. E. WEBB, Rector Sunday, June 25

Sunday Schools—11 a.m. Emmanuel Church, Sexsmith. 3 p.m. St. John's Church, Buffalo Lake. No Sunday School at Mount Star this week, but a talk to the children will be given during the morning service.

Services—11 a.m. Mount Star, North Kleskun. Open-air service on grounds of the new St. Stephen's Church, where the services are held. If wet, in the unfinshed church.

3:30 p.m. St. John's Church, Buffalo Lake.

Rev. Mr. Bob Cameron and family visited Mr. and Mrs. Cass Blum on Sunday.

Presbyterian Church service was held on Sunday, at 3 p.m. The service was taken by the deacons, Miss Moors. The usual summer crowd attended.

BELLOY NEWS

BELLOY, June 20.—Mr. D. Chisholm of Ogilvie's Flour and Mr. F. Jenkins were commercial visitors in Belloy last Friday and Saturday.

Mr. and Mrs. Carl Hansen of Silverwood were visitors in this district last Sunday.

Mr. A. Rouleau has been busy the past week preparing land for breaking on his homestead.

Miss Clara Boulet is expected home for a short vacation. Mr. and Mrs. Rouleau has been working in McLean's for the past two months, Vancouver.

Miss A. Poulin of Donnelly is visiting with her relatives, Mr. and Mrs. O. Poulin for a month.

Mrs. D. W. Bolduc and daughter visited with the Staffers last Sunday evening.

Allen and Ross Archibald are busy breaking on the farm of S. A. Howard this week. They report ample moisture, and Ross's only request is that we pray for rain. It will only be necessary to take it easy for a few days to regain those chiseled pounds once more.

WANHAM SPORTS JULY 1

At a recent meeting of the sports committee it was decided to hold the annual sports on July 1. A full line of sports is on the program.

Anthrax is not considered an important medical health problem in the United States, but more than two hundred cases occur annually.

Caught recently by a Norwegian crew, a whale bore in its body a harpoon of the type used forty years ago.

Don't forget—The Tribune is best.

VALLEYVIEW NEWS

VALLEYVIEW, June 20.—Mrs. F. Mayo and daughter, Shirley, had been visiting the former home of Mrs. J. J. Chamberlin, left for their home in Calgary. Last Saturday they were entertained at the Donley Hotel, Grande Prairie, in company with Mr. and Mrs. V. L. Chamberlin and daughter, also Mrs. J. J. Chamberlin. Letters on Sunday for Peace River, all report a most enjoyable trip. Come again.

The cutworms are making merry in the gardens at Valleyview. Some residents report their gardens cleaned out. The crop is far gone, escaped.

NURSE'S HOME BEING BUILT

The nurse's home is in course of construction. Everyone quite interested. We hope that the number long may be left with us to enjoy our new house. The women have all come to the fore and have supervised the workers with hot dinners.

We are sorry to hear Mrs. B. Boddeker has passed away.

Menzies' truck has adopted a schedule twice-weekly freight service, High Prairie-Edmonton.

Mr. and Mrs. McGee of High Prairie were visiting the Earl Frood.

Mrs. P. Ragen is in Faust, visiting friends.

Not till the reporter called at the home of Mrs. H. C. Hugson did he cry of a baby he'd known that there was one in that home. Weeks behind time, scribble! Shame!

He may be a real bore to some—this fellow who is seeking subscribers enough to entitle him to the Readers Digest to qualify for the contest—but the contest and its bonuses—but he's making the grade.

Complaint of dry weather is growing louder as the clouds withhold their burden.

Strawberry crop is at least a week ahead of usual. The first faint blush of ripeness was seen on a berry yesterday.

Children bring word home that at 2 o'clock this afternoon (the 19th) the sun was in the eye, possibly lost a long while announced some accident.

CRICKET SCORE CHALKED UP AT PERCY GAME

The Flying Shot Aces went to Percy on Friday June 16. Neither team played a good game, and Mr. Cavett, the umpire, seemed to have had a bad day. The score was 41-31 in favor of Percy.

Both teams have now won one game and the deciding game will probably be played sometime during the next.

Denis Howell, one of the Flying Shot players, had an accident with his horse, which are pleased to note was not serious.

Mr. and Mrs. Bertrand Tassington were Sunday guests of Mr. and Mrs. Harold Stephenson of Dumsdale.

Mr. and Mrs. Bob Cameron and family visited Mr. and Mrs. Cass Blum on Sunday.

Presbyterian Church service was held on Sunday, at 3 p.m. The service was taken by the deacons, Miss Moors. The usual summer crowd attended.

M. A. ROULEAU

Mr. and Mrs. Carl Hansen of Silverwood were visitors in this district last Sunday.

Mr. A. Rouleau has been busy the past week preparing land for breaking on his homestead.

Miss Clara Boulet is expected home for a short vacation. Mr. and Mrs. Rouleau has been working in McLean's for the past two months, Vancouver.

Miss A. Poulin of Donnelly is visiting with her relatives, Mr. and Mrs. O. Poulin for a month.

Mrs. D. W. Bolduc and daughter visited with the Staffers last Sunday evening.

FORM YOUNG PEOPLE'S CLUB

A group of young people met at the church-house on Wednesday, June 7. The formulating officers elected: Harry McKenzie, president; Carolee Halwa, secretary-treasurer; Mrs. A. J. Skinner, vice-president; Mrs. M. A. McCallum, Miss Mallam and Cliff McNeely on the committee. They planned to go on a hike and weiner roast June 13, which came off, all having a rousing time.

HOOT PRICES ADVANCE

Bacon hogs brought \$7.50 at Grande Prairie on Friday. This is a considerable advance over the price it will only be necessary to take it easy for a few days to regain those chiseled pounds once more.

WANHAM SPORTS JULY 1

At a recent meeting of the sports committee it was decided to hold the annual sports on July 1. A full line of sports is on the program.

Anthrax is not considered an important medical health problem in the United States, but more than two hundred cases occur annually.

Caught recently by a Norwegian crew, a whale bore in its body a harpoon of the type used forty years ago.

Don't forget—The Tribune is best.

FAUST NEWS

THE LAKE TRAGEDY

FAUST, June 19.—This happened rapidly during the past week. Try facing death a few minutes away and you'll know what the writer means.

Inexperienced on water, unable to swim; to be trapped on a burning boat with death only a few clock-ticks away—this was the experience of six men, including the foreman, who could swim.

Not that they couldn't save themselves, but in their panic they failed to notice the means of escape or couldn't use them.

Seasick lake men declared when we asked them if they had been cool; that the small boat carried with them could, with carelessness, give clinging for all; that the anchor chain and rigging of the rubber that protruded from the water could have given them a hold.

But as it was, the little boat proved to be a total loss, and the non-swimmer was cool enough to successfully use wreckage. It is not known that any of them thought of the need of a life preserver.

Cries heard by Captain Smith may have come from someone clinging there, but who may have finally succumbed to the cold water.

It is sad lives were lost that might have been saved.

Menzies' truck has adopted a schedule twice-weekly freight service, High Prairie-Edmonton.

Mr. and Mrs. McGee of High Prairie were visiting the Earl Frood.

Mrs. P. Ragen is in Faust, visiting friends.

Not till the reporter called at the home of Mrs. H. C. Hugson did he cry of a baby he'd known that there was one in that home. Weeks behind time, scribble! Shame!

He may be a real bore to some—this fellow who is seeking subscribers enough to entitle him to the Readers Digest to qualify for the contest—but the contest and its bonuses—but he's making the grade.

Complaint of dry weather is growing louder as the clouds withhold their burden.

Strawberry crop is at least a week ahead of usual. The first faint blush of ripeness was seen on a berry yesterday.

Children bring word home that at 2 o'clock this afternoon (the 19th) the sun was in the eye, possibly lost a long while announced some accident.

CRICKET SCORE CHALKED UP AT PERCY GAME

The Flying Shot Aces went to Percy on Friday June 16. Neither team played a good game, and Mr. Cavett, the umpire, seemed to have had a bad day. The score was 41-31 in favor of Percy.

Both teams have now won one game and the deciding game will probably be played sometime during the next.

Denis Howell, one of the Flying

Shot players, had an accident with his horse, which are pleased to note was not serious.

Mr. and Mrs. Bertrand Tassington were Sunday guests of Mr. and Mrs. Harold Stephenson of Dumsdale.

Mr. and Mrs. Bob Cameron and family visited Mr. and Mrs. Cass Blum on Sunday.

BELLING NEWS

BELLING, June 20.—Mr. D. Chisholm of Ogilvie's Flour and Mr. F. Jenkins were commercial visitors in Belloy last Friday and Saturday.

Mr. and Mrs. Carl Hansen of Silverwood were visitors in this district last Sunday.

Mr. A. Rouleau has been busy the past week preparing land for breaking on his homestead.

Miss Clara Boulet is expected home for a short vacation. Mr. and Mrs. Rouleau has been working in McLean's for the past two months, Vancouver.

Miss A. Poulin of Donnelly is visiting with her relatives, Mr. and Mrs. O. Poulin for a month.

Mrs. D. W. Bolduc and daughter visited with the Staffers last Sunday evening.

WANHAM SPORTS JULY 1

At a recent meeting of the sports committee it was decided to hold the annual sports on July 1. A full line of sports is on the program.

Anthrax is not considered an important medical health problem in the United States, but more than two hundred cases occur annually.

Caught recently by a Norwegian crew, a whale bore in its body a harpoon of the type used forty years ago.

Hythe Sports And Horse Show Were A Huge Success

Event Followed Event Like Clock-work—Horse Show Gives Promise Of Being Major Attraction In Coming Years.

HYTHE, June 15.—Well, the Hythe Sports and Horse Show are over and there was a huge success. The weather was clear but rather cool, owing to an east wind.

The management are to be congratulated on the orderly schedule of events. Every man did his duty and event followed event like clock-work, never a dull moment or delay.

Perhaps one's comment would be that too many things were going at the same time. It was too much sport card for one day. In future Hythe will probably have to feature a two-day show.

There was a goodly crowd in attendance and a large crowd for the dance, although we could have appreciated the Grande Prairie more if they had not been over one hour late in arriving. Many people went home and missed the dance.

Perhaps the only dull period of the day from 10 a.m. to 4 p.m. next day.

The Horse Show was all to the good, surprising because the horses were present. Horsemen and horse fanciers were well pleased with just and good education was given in horse shows. The results of our annual sports and horse show will increase until the horse show will be a major attraction, as everybody loves a good horse.

As the list of events is long, we can only give the results, as follows:

Baseball

Hythe Seniors won from Annen-Valhalla who won from Circle Annen. Hythe Juniors won from Beaver Lodge Juniors.

Hythe Seniors won from Grande Prairie. Valhalla won from Hythe Juniors. Valhalla won from Hythe Seniors in the final game to take first money.

A team of horses was to have been an exhibition game between Grande Prairie and Beaver Lodge Seniors, but Grande Prairie failed to come.

When in order to give the Beaver Lodge a game, Lee Hodges formed an All-Star team from the teams of our own, and the All-Stars won in a good game, 6 to 4.

Girls' Softball

Hythe eliminated Valhalla girls. Glass Lake eliminated Lymburn girls.

Grande Prairie eliminated Wem-bley girls.

Grande Prairie eliminated Glass Lake girls.

Grande Prairie and Hythe played the finale resulting in a win for Grande Prairie.

Men's Softball

Wem-bley eliminated Glass Lake team.

Case Eagles eliminated Ashdown. Case Eagles and Wem-bley played the finals, resulting in a win for Wem-bley.

Horse Show

In the Horse Show, although there were many entries, Alberta Vikings won all the first prizes, and there were no second prizes.

Draft Team, Geling or Mare-Veldhuis.

Agricultural Team, Geling or Mare-Veldhuis.

Best Mare with Foal at side—Veldhuis.

Best Saddle Horse—Ted Hartley.

Horse Races

Free for All—Frank Donald, first and second.

Chariot Race—Frank Donald first, Tufteland second.

Pony Race—Tufteland, first and second.

Roman Race—Tufteland, first and second.

Other Events

Girls' Bicycle Race—1st, Esther Balderson; 2nd, Ruth Balderston; Boys' Bicycle Race—1st, Elwin Hooton; 2nd, Morris Cunningham.

Ladies' Basketball—Grande Prairie vs. Huallen, was won by Huallen.

The only amateur athletic sports for children were run off but we did not get the winners.

Ralph Garrell umpired for the first baseball game to last one and did a swell job. Mr. Gregor umpired the Hythe-Annenell game.

Beaver Lodge Band supplied good music. Thanks again for coming.

COMMUNITY BALL ALL SUMMER

From now on it will be ball all summer, and we are giving the family a tip that these games will be held every Wednesday and Sunday afternoons, at 2:30, and Friday evenings at 7:30. So listen in to the radio for dates, and if within our distance come and see us.

MAKE BREAKFAST FUN

Have SNAP! CRACKLE! POP! on the table.

SO CRISP THEY CRACKLE IN CREAM!

Kellogg's RICE KRISPIES

From Eve to silly they go for Kellogg's Rice Krispies—the cereal that positively sings its invitation as you pour on the cream. And the taste...man-alive, these home-colored bubbles are the result of the old fashionedness! They snap, crackle, too, till you've scraped the bowl.

Rice Krispies are bringing fun to thousands of Canadian breakfast tables. Send for your free booklet. Order a package today! Made by Kellogg's in London, Canada.

HYTHE NEWS

GOOD CROWD ATTENDS SOCIAL CREDIT MEETING

HYTHE, June 20.—A Social Credit meeting was held in the United Church on Monday night with a good crowd attending to hear Mr. Wm. Sharp, M.L.A., of Grande Prairie and Mr. M. B. Baker, M.L.A., from Fort Saskatchewan, report on the activities of the government.

Mr. Sharp reviewed briefly the financial situation and services rendered the public during the past four years.

Timothy is deservedly the most popular cereal for baby and children. It is both palatable and nutritious and when cut early is an exceedingly valuable fodder. Colonel Peel, of the C.S.O., in his book, "Cattle and Management," says that timothy hay should be cut before the heads have emerged, and none can dispute this.

The percentage of digestible protein is largely the measure of quality of hay. Protein, high in nitrogen, contains sulphur, potassium, calcium, sulphate of ammonia, nitrate of soda and cyanamide, applied at the rate of 100 lbs. per acre will definitely increase the protein content of the grasses, as Dr. Shutt's investigations have shown.

In the Journal of the Ministry of Agriculture, April 1938, appeared an interesting report by A. H. Lewis, Jealott's Hill Research Station, Bracknell, Berkshire, England, on the effect of quantity of fertilizer on the quality of grass. The author refers to experiments carried out by Sprague and Hawkins in the United States, who found that the protein content of timothy could be increased substantially by applications of nitrogen fertilizers from 10 to 15 per cent, depending upon the rate of application.

At Jealott's Hill extensive trials on replicated plots, the results confirming those obtained by Sprague and Hawkins.

Lewis points out that much of the hay crop in Great Britain has a very low protein content, particularly after only 7.5% of crude protein.

Applications of nitrogen fertilizers in early spring usually increase yields and protein proportionally, but the percentage of protein in the crop is not increased.

In March the plots received a liberal dressing of lime, superphosphate mixtures, the nitrogen fertilizer being applied at rates varying from 10 to 200 pounds per acre, 10 and 20 days before cutting, and between the effects of sulphate of ammonia and nitrate of soda were shown. The percentage of crude protein in the hay was increased from 8.69% up to an average of 11.74%.

In March the plots received a liberal dressing of lime, superphosphate mixtures, the nitrogen fertilizer being applied at rates varying from 10 to 200 pounds per acre, 10 and 20 days before cutting, and between the effects of sulphate of ammonia and nitrate of soda were shown. The percentage of crude protein in the hay was increased from 8.69% up to an average of 11.74%.

ILLUSTRATED NEWS OF THE WEEK

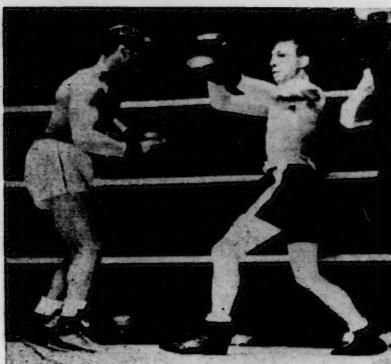

WHERE KING AND QUEEN HAD EXCELLENT VIEW OF NIAGARA FALLS

Above are pictures of the beautiful gardens at Niagara Falls, Ontario, and the famous dining-room on the top of the General Brock Hotel, from which Their Majesties the King and Queen had a fine view of the Falls. It was at this point Their Majesties left Canadian soil to go to Washington and New York.

SPANISH REFUGEES JOIN THE FRENCH FOREIGN LEGION

Several thousand Spanish soldiers who fled after the Government was defeated in Spain have joined the French Foreign Legion and are now stationed at Marseilles, where they will be equipped. This picture shows some of the new Legionnaires in the Legion uniform on their way to the barracks.

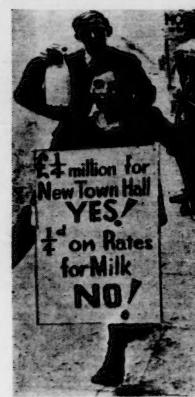

WHEN ARMSTRONG RETAINED HIS TITLE

Henry Armstrong, world's welterweight champion, left, retained his title by defeating Ernie Roderick, British champion, right, on points. Roderick went the full fifteen rounds, but Armstrong had him beaten for speed.

HELPS LEAFS OUT OF BLUMP

Hank Bellier, Toronto Maple Leaf, catcher, slugged a home run the other day to bring the score of the game, and he did better than he realized. The Leafs had lost eight straight before Hank connected, but following the homer they scored three successive victories.

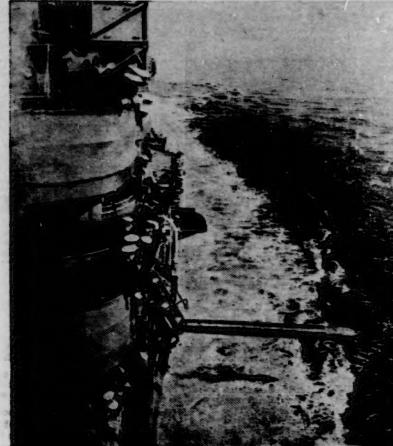

YOUNG BRITAIN SPEAKS

This youngster was part of the parade picketing the St. Pancras Town Hall in London recently during a meeting of aldermen and commissioners. The boy said says the council can afford to spend \$1,225,000 on a new town hall, but cannot afford to put one million dollars on the rates so that the youngsters in the district can have milk.

McGILL HEAD RESIGNS
Dr. Lewis W. Douglass, appointed principal of McGill University less than two years ago, has resigned to take over a new post in Canada. He had gone to Montreal to fill the post left vacant by the resignation of Arthur E. Morgan, the English-born professor, who left McGill because he could not see "eye-to-eye" with the board of governors.

WITH THE REPULSE IN ACTION

An excellent action picture taken on Aug. 10 the H.M.S. Repulse showing a torpedo boat leaving the ship on its mission of destruction. The Repulse is taking part in Home Fleet exercises off Portland.

THEY ARE NOT NEW TYPES OF FRANKENSTEIN

Looking somewhat awesome as they lumber towards the camera, these men, dressed in asbestos suits, have just demonstrated the efficiency of their outfit in saving the injured from burning airplane. The demonstration was part of the National Service Display put on to make the average Britisher conversant with the types of voluntary defense service in which he can serve. The thousands of enthusiasts attending the seventeenth annual British Games at the White City saw the above demonstration.

ARREST "INJUSTICE"

Irish friends and U.S. congressmen came to the aid of Sean Russell, above, Irish Republican army chief, arrested by immigration authorities in Detroit and awaiting his release and terminating his arrest a "grave injustice." Russell is said to have denied any part in the recent bombings in England. Russell was so quoted in Los Angeles.

CROPS IN SASKATCHEWAN ARE MOST PROMISING, SAYS J. FLEMING OF HYTHE

Mr. and Mrs. J. A. Fleming of Hythe stopped off for a short time at Grande Prairie on Friday, en route home after a trip to the outside world, took them as far east as Vancouver on the Coast, and Vancouver they visited their two daughters.

In reply to a question put by The Tribune reporter with regard to the crop conditions in Saskatchewan, Mr. Fleming said the crops never looked more promising or were in better condition.

A SPECIAL TRIBUNE FEATURE

THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

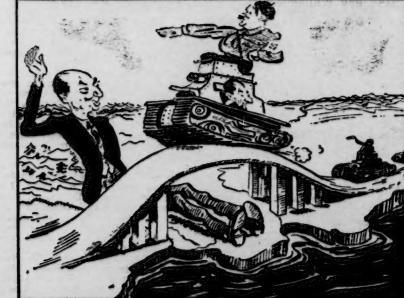

IN THE NAZI PURGE

According to reports received from Berlin the above two were among the thirty or more officers in the latest Nazi purge of the army for opposition to foreign policies. Left is General Hermann Geyer, and right is General Staelnagle, high air officer relieved of his command.

CUTE CHINESE? JUDGES SAID SO

Aren't they cute? Yes, and so agreed judges in a Chinese children's contest at the San Francisco International Exposition who selected Clair Serene Low, left, and Kenford Kong as the "cutes" Chinese girl and boy in the contest.

Suggested solution of the Polish corridor question.

—Caravane, Cairo.

SUMMER FROCKS ARE SMART, COOL AND WASHABLE

Smart and cool, and, above all, washable. Summer clothes will feature all these things this year. Here are some frocks particularly useful for the coming season. The daytime dress (centre) features Val lace, frillings, and ruffles, puffed shoulders. The frock (right) is made of Georgette, with a minimum of crushing and laundering as easy as a hankie. The dinner dress (right) is made of sanforized shrunk cotton with cap sleeves and perky bows at either side of the bodice-top. The print is a reproduction of hand block designs. The second, neoprene, has a belt of a Swiss family of designers. The sleeveless evening gown (left) is made from an old-fashioned cotton print in distinct geometric design. The enormous skirt billows out whether or not a hoop is used.

PEORIA NEWS

REISWIG-KANDT

PEORIA, June 19.—On the evening of June 14 the Reinham, S. D. A. club was crowded to capacity with friends and relatives of Mr. Ezra Reiswig and Miss Magdalene Kandt to witness the conclusion of their wedding at the Littleton church.

After the ceremony a reception was held in the church school, where a tasty buffet luncheon was served, followed by a short program of musical numbers, songs, poems and readings. The young couple received some very nice and useful gifts.

The wife, God's blessing on this young couple and a good measure of the things worth while.

The crops are doing nicely. The weather is fair. Cutworms have done some damage. One farmer was heard to say that he plans to raze his entire crop because the cutworm damage is in gardens.

The savannah has completed the annual run. The last morning air is no longer pierced with that loud whistle to wake the residents.

Harold, our gas dealer, is lamenting. He thinks his brother will not burn as much gas now he is married.

GORDONDALE

GORDONDALE, June 14.—Showers and more showers are keeping the crops coming along at a rapid pace—quite a different outlook than last year at this same time.

NATURE DOING HER BEST TO RESTORE FORESTS

Nature's patchwork has been drifting around the past two weeks, to such an extent that it was hard to be near any brush and take a breath without being pelted with one's nostrils. Poplar, larch and birch have flowered and seeded most profusely. One native, who has lived in the country for many years, said the like he has never seen before—nature endeavoring to replenish man's wanton destruction and the past two years with carelessness fires.

Miss Irene Potratz was rushed to Spirit River on the night of the 6th from medical consultation. She was bedridden, but fortunately it was not. She returned home two days later somewhat relieved of the pain and was back in bed again when she stayed until the 13th. She has now recovered completely and is up and around.

MISSIONARY STUDENT RETURNS AND GIVES FINE SERMON

Mr. R. D. A. Currie, missionary student who has returned to this district, held divisional services on the 4th. Taking a flight from the Bed of Kings "God save the King," he delivered the sermon in his same majestic yet simple style to the large congregation at the church in Gordondale to date. He will hold services here every two weeks during the summer.

Mr. and Mrs. Joe Williamson were week-end visitors at the home of their son and daughter-in-law, Mr. and Mrs. Roy Williamson.

The G.W.W. have worked out details for a formal outdoor community picnic on June 29 to be followed by a farewell for the teacher, Miss H. Leslie. Everyone most cordially invited.

A QUESTION FOR NATURAL HISTORY STUDENTS

Not being very intimate with Canadian natural history, would like to know if it is common for the birds to lay their eggs outside of trees to have community nests. While cutting brush I observed five feeding four of their young of different sizes in a small hollow log. They had retained three eggs which have since been hatched out by the fledglings. All the owls in England lay their eggs in the nests of others, including the first two, the balance being hatched by the young, so that part can be comprehended; but three males and two females, plus plump feeding the one family I've never seen before with any species.

GORDONDALE WILLING WORKERS

The regular monthly meeting of the G.W.W. was held at the home of Mrs. A. Michel on June 9. There being no other business on hand, arrangements were made for the picnic.

Mrs. D. Menzies, on behalf of the G.W.W., presented Miss Leslie with a parting gift, as she is leaving our district this month.

The next meeting will be held at the home of Mrs. Ed. Johnston on July 14.

ENILDA NEWS

CUTWORMS PAY ANNUAL VISIT

ENILDA, June 19.—The farms of this district are having their first experience with cutworms and many of them have seed the second time. This is the first time that cutworms have been known to do any damage to crops in this district.

A new bridge on the correction line north of Enilda has just been built and filled, which is a great improvement.

The Enilda schools are planning on having their annual picnic on June 30.

CHAS. HEFT DIED LAST FRIDAY

Mr. Chas. Heft of Enilda was taken to hospital on Thursday and passed away on Friday morning. He had not been ill for some time and one realized the seriousness of his condition. He leaves a family that is grown-up, but left no word as to where any of them live.

CLAIRMONT NEWS

MRS. ROBIN "SHOWERED"

CLAIRMONT, June 19.—Mrs. Walter Clegg and Miss Billie Lee were last hostesses at a shower given last Tuesday afternoon at the former's home for Mrs. Maurice Roblin (née Miss Clara Clegg). Twenty-two ladies were present to shower the bride with many useful and lovely gifts. A delicious lunch was served by the hostesses.

Tell and sell with a Tribune ad.

HE DIDN'T MAKE IT—TO MARS!

Although planned for March according to story—Chester Eshelman, student pilot of Canada, perished right smash in the Atlantic Ocean 200 miles off Boston in a small monoplane. Unhurt, he was picked up by a fishing boat. Eshelman is shown with his mother, Bertha Eshelman.

SPARKLING BIRTHDAY PARTY

Some forty joined Jack Mantle at Bear Lake Saturday night to celebrate Jack's birthday. The bright orange program was a huge bonfire, around which everyone sat and sang songs.

Jack's age was not announced, at least not publicly.

W.M. S. RALLY ON JUNE 29

The Women's Auxiliary Society rally will be held at Hythe on Thursday, June 29, at 3 p.m.

Mrs. J. Archer, who will return from Toronto, where she attended a meeting of the Donors' Council, will have a vital message for the gathering.

CHRISTIAN SCIENCE

"Christian Science" is the subject of the Lesson-Sermon at all Christian Science Services throughout the world.

The Golden Text is Isaiah 49:12: "One of the Scriptural citations is: 'For other foundation can man lay than that which is laid in this Word of Truth' (1 Cor. 3:11). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is: 'The Word of Truth is the foundation of all spiritual health' (p. 136).

Large Attendance At Massey-Harris Dealers' Meeting

Heavy Interest And Inviting Tables By H. L. Smith, Supervisor Of Agencies, And Other Officials—Splendid Banquet At The Donald Cafe Climaxed Meeting.

Thirty Massey-Harris dealers attended the convention held at Grande Prairie on Friday, June 11. They assembled in the big Massey-Harris warehouse and were addressed by H. L. Smith, supervisor of agencies, Elmer S. Bratch, J. F. Swanson, blockman for south side of the Peace, and G. W. Hoffman, blockman, north division.

Local interest was taken in the addresses, and the dealers felt that the convention was quite worth while coming many miles to attend.

Banquet

The dealers were guests of the company at a banquet held in the evening at the Donald Cafe—a banquet prepared and served in that catered restaurant style.

Mr. Smith, who was master of ceremonies, expressed regrets that J. Hilton, manager of the Edmonton office, was ill.

Continuing the supervisor said that it was fitting that a meeting such as this should be climaxed with such a splendid social affair. He then spoke upon Walter Hemstock of Fairview, who observed that the convention was most stimulating, and he was going to Fairview to encourage dealers to sell more machinery.

Steve Keay of Spirit River said it was always a pleasure to attend the annual convention of Massey-Harris dealers. "I think we are representing one of the best machine companies in the west," said Steve, who then referred to the splendid operation which the dealers in the south block had always received from the company.

Mr. Hoffman, blockman for the north division, thanked the officials for the instructive addresses and for the entertainment provided.

Mr. Swanson referred to the meeting as a stimulant or, in other words, a "shot in the arm." The large turn-out, he said, indicated the fine cooperation which exists between the company and dealers.

Mr. Swanson then touched on the kinds of machinery which are based on the price of machinery instead of on the price in bringing the price of farm products up to a higher level, which would affect the relationship between the farmer and the company.

Mr. Smith, in closing the banquet, observed that he was proud to be a member of the Massey-Harris Company, which has been in existence for 40 years.

After noting that the company had enjoyed a large share of the business in the Peace River, Mr. Smith said that the company had been to Edmonton with more faith in the Peace River country than ever, and in the belief that with the assistance of the dealers, the company could continue to get its fair share of the business.

C. W. Frederick of The Herald and J. B. Yule of The Tribune spoke for the dealers present.

The following is a list of the names of the dealers present:

Grande Prairie Block

Fort St. John—R. C. Pomeroy, Geo. Packwood.

Dawson Creek—Bert Harper, Sub-dealers: Geo. Stewart and Hugh Allen.

Hythe—M. J. Light and R. F. Sawyer, Sub-dealer: Beaver Lodge—Edwin John and John Hawkins.

Wendy—A. A. Pichko, Grande Prairie—W. F. Ward, Clairmont—D. I. Redwood.

Sexsmith—Win. Shannon, Spirit River—D. H. Keay, E. Jacobs, sub-dealer; J. W. Webers, blockman.

Wanham—E. H. Prevost, Wm. Livingston, special representative.

J. F. Swanson, blockman

Peace River Block

Fairview—Walter Hemstock, Whitehead—J. F. Kyle.

Bronwale—Old Town.

Brownvale—Steve Wesoluski, Berwyn—R. E. Davies.

Grimshaw—Henry Erickson, Newmarket—L. Berger.

Notukewin—Ed. Sharp, Peace River—C. Beaman.

Fahler—L. D. Ham.

Dixonville—H. C. Bakka, G. W. Hoffman, blockman.

RURAL AUTO CAMPS URGED AT A.M.A. MEET

Needs of operating modern auto camps, being of particular value to their districts, was stressed by D. C. Campbell, director of publicity for the provincial government, when addressing the members of the Alberta Motor Association at their recent meeting in Calgary.

The auto camp, said Mr. Campbell, indicates the state of mind and his money, with resultant benefit to the merchant in particular and the entire community in general.

From a commercial standpoint, these camps should be modern and

of a standard that would appeal to the motor tourists, said the speaker. Gathering of complete and accurate statistics concerning the tourist business in the province also was advocated by Mr. Campbell.

The publicity chief also urged that the public place greater patrol at various points to welcome and interview tourist visitors.

Complimenting the Alberta Motor Association for their efforts to awaken local interest in tourist traffic, the speaker said the labors of the past five years were just beginning to bear fruit.

TWILIGHT TIGERS, 15: MILLER MILLIONAIRES, 1

The Twilight Tigers staged a slugging contest on Sunday afternoon, ending at 10 p.m. at Twilight ball park, when they were hosts to the Miller Millionaires of Grande Prairie.

The baseball was very different from the previous game in that six runs were scored as against two.

The Millionaires only connected for one safe hit, while the Tigers had four hits, three of which were to the plate.

Walter Harrison won the hitting laurels of the day by getting a double and three singles for five trips to the plate.

The next game will be played in Grande Prairie on Saturday, June 24, at 2:30 p.m.

THE WORLD OF WHEAT

By H. G. L. Strange

Director, "The Crop Testing Plan."

Many farmers in order to improve their crops have had some registered and certified seed. To obtain the best results a material should be an all-round seed, and if possible, more wide, kept clear around it, so that there is no chance of the good material becoming mixed with adjoining lower quality crops.

Gophers, field mice and birds, all carry seeds of other varieties into even the best fields; therefore as soon as the plants have headed out, the farmer should walk through his seed field, and should pull out by the roots any plant that is obviously not belonging there. This is an operation which pays handsomely.

Some may desire to have their seed cleaned and sorted, so that each can sell the seed in cartons or sealed in the sack as registered or certified. In this is the intention, then farmers will have to pay a small fee, and before July 1 with Mr. W. T. G. Wiener, secretary of the Canadian Seed Growers' Association at Ottawa, and the district supervisor will write to the District Supervisor of Production Services—Plant Products at Winnipeg, or to the Ministry of Agriculture, for a copy of the registration plan. These gentlemen will then inform the farmer about the next steps to be taken.

Following factors have tended to raise price: Argentina and Italy sign trade agreement—Germany purchases Canadian wheat—Argentina has favorable crop divisions from parts of Europe—Argentina subsidizing wheat for domestic feed purposes—Grazing causing considerable damage in western Canada—Indication of rust in American Southwest. Following factors have tended to lower price: Generals rain in western Canada and United States—Algerian wheat prospects good and more active following rains in Argentina—Reports suggest decrease in Australian acreage—Russia offering to buy grain for first time—Lands of wheat on the Continent—Higher sugar shipments from Philippines.

"Ole" Augustine Of Yellowknife Is A Visitor To G. P.

Says That Consolidated Mining And Smelting Company Is Producing Soon—Excellent Working Conditions For Miners—Former Grande Prairie Steadily Employed.

"Ole" Augustine, formerly employed at the Wapiti Mines, who left Grande Prairie a year ago last April and since then has been employed by the Consolidated Mining and Smelting Company at Yellowknife as a hard rock miner, arrived by car at Grande Prairie Saturday last having having

been invited to speak to the members of the Grande Prairie Chamber of Commerce.

The Miners' Union only connected for one safe hit, while the Tigers had four hits, three of which were to the plate.

Walter Harrison won the hitting laurels of the day by getting a double and three singles for five trips to the plate.

The next game will be played in Grande Prairie on Saturday, June 24, at 2:30 p.m.

Well Attended.

(Continued from Page One) —

there being at that time a \$5,000,000 overrating.

During the depression the purchasing power of the farmer was greatly curtailed owing to the fall in prices of the products he produced, and he was compelled to live on a diet which was not nutritious.

Mr. Mortvedt of Appleton was called at the Tribune office on Wednesday. He said that his district needs rain, but the cutworms were not working except in a few districts.

Continuing, Mr. Sharp said that the immigration office spent several days in the district.

Harry Bay northern representative of the Canadian Packers Supplies Ltd., Calgary, is covering the Prairies.

He said that the grain market is still strong, and the grain is moving well.

J. Prasse and son, Gust, of Poucette spent a few hours in Grande Prairie on Sunday.

Rev. H. Young of Calgary arrived in Grande Prairie on Friday to spend a time at McLaury Baptist Church.

Don Mortvedt of Appleton was called at the Tribune office on Wednesday. He said that his district needs rain, but the cutworms were not working except in a few districts.

J. D. McIlhargey of the Dominion Immigration Office spent several days in the district.

Harry Bay northern representative of the Canadian Packers Supplies Ltd., Calgary, is covering the Prairies.

He said that the grain market is still strong, and the grain is moving well.

Mr. and Mrs. W. G. Given and son, R. A. and George Tilley of the DeBolt district were visitors in Grande Prairie on Saturday.

J. F. McMillen, manager of the Marshall-Wells branch at Edmonton, was in town on Wednesday and went to see Prince George on Thursday.

C. Cornborough and Ed. Martin of Teepee Creek were visitors to Grande Prairie on Thursday.

Dr. S. G. MacIntyre, geologist representing the Pittsburg interests who recently took over the control of the Poucette oil field, and who spent some time in the field, left for Edmonton yesterday.

Mr. Koen, representing Western Oceanic and Durbin Chisham, Ogilvie Flour, are making their usual rounds of the district.

E. Smith of Calgary, district manager for the Singer Sewing Machine Company, is a business visitor in Grande Prairie this week.

Mr. and Mrs. Frank MacDonald and son, Ronald, arrived from the Coast Wednesday evening, by car.

Mrs. J. Jaeger, Mrs. R. B. Harris, Miss Irene Connolly, Marion Stokes and others of the family were visiting friends in Grande Prairie, having motored in from Edmonton.

Mr. Baker said that it was the intention of the government to make it easier for the people to establish a higher standard of living, and to that end pass certain legislation which was discussed.

"We have come to the conclusion that finance is in power in the Dominion," said Mr. Baker, who then referred to the proposed legislation which he said were withdrawn owing to the fact that the financial interests blocked the scheme. "We are going to work through the circulation of these certificates, observed Mr. Baker. The government has decided to issue non-negotiable transfer vouchers to the difficulty experienced with the temporary certificates which had removed.

Mr. Baker said it was the intention of the government to establish Treasury branches in every county.

Mr. Baker said that he made the trip to look the country over. "You certainly have a neat town here," he remarked.

The speaker appealed to all pro-

gressives to quit quarreling and unite in bringing about a better condition. "There are three important things to be brought about.

There were lower cost of living, greater purchasing power placed in the hands of the people, and freedom with security.

The balance of Mr. Baker's address was given with the aid of lantern slides showing the facts of the new legislation. He said that if the natural resources were taken advantage of no one need be out of
